

Michael Suchorolski

(786) 775-7605 | Aventura, FL, 33180 | mikesuchor@gmail.com | www.linkedin.com/in/michael-suchorolski/

Frontend Developer with 8+ years of experience building high-performance responsive web, mobile, and desktop applications using JavaScript, React and TypeScript. Contributed to large-scale rebuilds, helped create reusable component libraries, and collaborated with cross-functional teams to deliver scalable and maintainable products. Bringing modern frontend expertise with AI-assisted workflows to teams that value growth, teamwork, and celebrating wins.

TECHNICAL SKILLS

JavaScript • React • TypeScript • Vite • Next.js • Tailwind • TanStack Query • GraphQL • REST APIs • HTML • CSS • Git • CI/CD (CircleCI, GitHub Actions) • AWS • Figma • Scrum/Agile Development • WordPress • UI/UX • Accessibility • Analytics • AI Workflows (OpenAI, Anthropic, GitHub Copilot, Prompt Engineering)

WORK EXPERIENCE

Gavant Software 4 years (Aug. 2021 - Jul. 2025)
Frontend Developer Remote (Albany, NY)

- Modernized a large-scale legacy website from Figma designs, delivering hundreds of responsive pages through a scalable, component-based React/TypeScript architecture and reusable component library, with REST API integration powering dynamic content and improved user workflows.
- Collaborated as part of an embedded team with Globality, an AI-driven procurement platform, delivering new React/TypeScript features, resolving complex production bugs, integrating GraphQL APIs, and managing front-end CI/CD deployments with CircleCI.
- Rebuilt a legacy mobile app to restore App Store compliance and reactivated a six-figure annual in-app revenue stream by re-implementing subscription and purchase APIs.

Harkus Strategic Design Solutions Inc. 2 years, 7 months (Jan. 2019 - Jul. 2021)
Full Stack Developer Calgary, AB, Canada

- Delivered dozens of high-performance, fully customized Wordpress websites, using HTML, CSS, JavaScript, PHP, and modular front-end patterns to ensure maintainable, responsive, and reusable UI components.
- Upgraded and optimized existing websites to enhance user experience, boost performance, and improve accessibility while ensuring alignment with modern web standards.

AssureSoft / NICE inContact 2 years (Jan. 2017 - Dec. 2018)
Scrum Master & Full Stack Developer Cochabamba, Bolivia

- Contributed to development of market-leading cloud-based call center software using Angular, Node.js, HTML, CSS, and JavaScript, working as part of a 200+ member Spanish-speaking engineering team.
- Led four Agile teams as Scrum Master, driving sprint planning, facilitating Scrum ceremonies, tracking key metrics, and leading initiatives to improve team productivity.

J.K. Engineering Ltd. 16 years, 3 months (Oct. 2001 - Dec. 2017)
Senior CAD Technician Calgary, AB, Canada

- Produced multidisciplinary CAD drawings for 200+ projects and trained team members.

EDUCATION

- **InceptionU**
Full Stack JavaScript Bootcamp, 2018-2019
Intensive 6 month project-based curriculum emphasizing full stack JavaScript development with React, Node.js, PostgreSQL, REST APIs, and Agile practices.
- **Harvard edX**
CS50: Introduction to Computer Science Certificate through Harvard Online University, 2017-2018
