

Michael Suchorolski

Frontend Developer | React • TypeScript • JavaScript

(786) 775-7605 | Aventura, FL | mikesuchor@gmail.com | [linkedin.com/in/michael-suchorolski](https://www.linkedin.com/in/michael-suchorolski)

Frontend Developer with 8+ years of experience building responsive web, mobile, and desktop applications in React, TypeScript, JavaScript, Next.js, and Node.js. Rebuilt large-scale legacy sites, created reusable component libraries, and integrated REST/GraphQL APIs to power dynamic content. Focused on writing maintainable code, collaborating closely with cross-functional teams, and using AI-assisted tools to work more efficiently.

TECHNICAL SKILLS

Languages & Frameworks: React.js | TypeScript | JavaScript | Next.js

Styling: HTML | CSS | Tailwind CSS

Backend & APIs: Node.js | Express.js | GraphQL | REST APIs | TanStack Query

Tools & Practices: Git | CI/CD | Agile/Scrum | Figma | Jest

Other: AI-Assisted Workflows (Claude, GitHub Copilot) | UI/UX | Accessibility | WordPress

WORK EXPERIENCE

Gavant Software | Frontend Developer | Aug. 2021 - Jul. 2025 | Remote (Albany, NY)

- Rebuilt subscription and purchase APIs for a legacy mobile app with 200K+ users, restoring App Store compliance and reactivating a six-figure annual revenue stream.
- Modernized a large-scale legacy website from Figma designs into hundreds of responsive pages, using Next.js for routing, Tailwind CSS for styling, a component-based React/TypeScript architecture, and a reusable component library.
- Operated as part of an embedded team with Globality, an AI-driven procurement platform, shipping new React/TypeScript features, writing unit tests, resolving complex production bugs, integrating GraphQL APIs, and managing CI/CD deployments with CircleCI.

Harkus Strategic Design Solutions Inc. | Full Stack Developer | Jan. 2019 - Jul. 2021 | Calgary, AB, Canada

- Worked directly with clients to build highly customized websites on the WordPress platform, using HTML, CSS, JavaScript, PHP, and modular, reusable UI components.
- Transformed outdated, poorly built websites into fast, accessible, SEO-optimized, and visually modern sites for new clients, improving performance across the board.

AssureSoft / NICE inContact | Scrum Master & Full Stack Developer | Jan. 2017 - Dec. 2018 | Bolivia

- Built features for market-leading cloud-based call center software using Angular, Node.js, HTML, CSS, and JavaScript, as part of a 200+ member Spanish-speaking engineering team in South America.
- Moved from a Scrum Master role on one product team to a larger engineering team within the company, taking on a hands-on full-stack development position.
- Led four Agile teams as Scrum Master, driving sprint planning, facilitating Scrum ceremonies, and tracking key metrics to improve team productivity.

J.K. Engineering Ltd. | Senior CAD Technician | Oct. 2001 - Dec. 2017 | Calgary, AB, Canada

- Produced multidisciplinary CAD drawings for 200+ projects and trained new team members on technical standards and drafting practices.

EDUCATION

- **InceptionU**, Full Stack JavaScript Bootcamp, 2018-2019
Intensive 6-month, project-based program focused on full-stack JavaScript development with React, Node.js, PostgreSQL, REST APIs, and Agile practices.
- **Harvard Online**, CS50: Introduction to Computer Science Certificate, 2017-2018
- **freeCodeCamp**, Full Stack Web Development Certification, 2016-2017
- **Anthropic Certifications:** Claude Code in Action, AI Fluency Framework & Foundations
