Michael Suchorolski

Full Stack Developer | React | TypeScript | Node.js | Python | SQL

(786) 775-7605 | Aventura, FL | mikesuchor@gmail.com | linkedin.com/in/michael-suchorolski

Full Stack Developer with 8+ years of software development experience. Builds high-performance applications across React, TypeScript, Node.js, Python, and SQL, owning work from design to delivery. Modernized large legacy websites with 200K+ users into faster, easier-to-maintain Next.js codebases. Built front-end features and integrated REST/GraphQL APIs and back-end services. Dependable teammate who works well with cross-functional teams, explains technical problems in plain English, and picks up new tools quickly.

TECHNICAL SKILLS

Frontend: JavaScript | TypeScript | React.js | Next.js | HTML | CSS | SCSS | Tailwind CSS
Backend & APIs: Python | Flask | FastAPI | Node.js | Express.js | REST APIs | GraphQL | WebSockets | SQL
Tools & Practices: Git (GitHub, GitLab) | CI/CD (CircleCI) | Docker | Agile/Scrum | Figma | Jest
Other: AI-Assisted Workflows (Claude, GitHub Copilot) | UI/UX | Accessibility | WordPress (PHP)

WORK EXPERIENCE

Gavant Software | Frontend Developer | Aug. 2021 - Jul. 2025 | Remote (Albany, NY)

- Rebuilt subscription and purchase API integrations for a legacy flight data mobile app, restoring App Store compliance and reactivating a six-figure annual revenue stream.
- Modernized a legacy flight data website with 200K+ users, translating Figma designs into hundreds of responsive pages using Next.js, Tailwind CSS, and a component-based React/TypeScript architecture with a reusable component library.
- Operated as part of an embedded team with Globality, an AI-driven procurement platform, shipping new React/TypeScript features, resolving complex production bugs, writing unit tests with Jest, integrating GraphQL APIs with Apollo, and managing CI/CD deployments with CircleCI.

Harkus Strategic Design Solutions Inc. | Full Stack Developer | Jan. 2019 - Jul. 2021 | Calgary, AB, Canada

- Worked directly with clients to build dozens of highly customized websites on the WordPress platform, using HTML, CSS, SCSS, JavaScript, PHP, and modular, reusable UI components.
- Transformed outdated, poorly built websites into fast, accessible, SEO-optimized, and visually modern sites for new clients.

AssureSoft / NICE inContact | Full Stack Developer & Scrum Master | Jan. 2017 - Dec. 2018 | Bolivia

- Built features for NICE inContact (now NICE CXone), a market-leading cloud-based contact center platform, using Angular, HTML, CSS, JavaScript, Node.js, Python, and SQL, as part of a 200+ member Spanish-speaking engineering team in South America.
- Moved from a Scrum Master role on one product team to a larger engineering team within the company, taking on a hands-on full-stack development position.
- Led four Agile teams as Scrum Master, driving sprint planning, facilitating Scrum ceremonies, and tracking key metrics to improve team productivity.

J.K. Engineering Ltd. | Senior CAD Technician | Oct. 2001 - Dec. 2016 | Calgary, AB, Canada

- Produced multidisciplinary CAD drawings for 200+ projects and trained new team members on technical standards and drafting practices.

EDUCATION

- **InceptionU**, Full Stack JavaScript Bootcamp, 2018-2019
  Intensive 6-month, project-based program focused on Full Stack JavaScript development with React, Node.js, PostgreSQL, REST APIs, and Scrum & Agile practices.
- **Harvard Online,** CS50: Introduction to Computer Science Certificate, 2017-2018
- **freeCodeCamp**, Full Stack Web Development Certification, 2016-2017
- **Anthropic Certifications:** Claude Code in Action, AI Fluency Framework & Foundations
